Compiled reference document for courses, instructors and platform features

About This Document

Source: <https://leadersacademia.com/> | Crawl date: 25 Sep 2026 | Extracted by: Claude (Web Scraping & Data Extraction Specialist mode)

HOW TO USE THIS WORKBOOK

- Courses — every course/program on the site (17 rows), one row each, ready for filtering/sorting/PivotTables.
- Instructors — the 7 listed instructors with bios, expertise, and the courses each one teaches.
- Platform_Features — homepage value props, live-class tech, certification, contact/footer & social data.

COLUMN NOTES

- Price Category = Budget ($\leq$ PKR 9,000) / Standard (PKR 10,000–30,000) / Premium ($>$ PKR 30,000), based on the Full Course fee.
- Rating (Reviews)/(Students) = the value shown live on-site (text, e.g. '0.0 (0 reviews)'). Rating (Numeric) = that same value parsed to a plain number for conditional formatting/PivotTables; blank = no numeric rating exists on-site (e.g. company leadership rows).
- 'Curriculum is being prepared' in Syllabus/Modules = the course page itself states this; no lesson-level breakdown is published yet for that course.

CONDITIONAL FORMATTING — Rating (Numeric) column, Courses & Instructors sheets

- Soft Green row highlight = 4.8 – 5.0 stars (top-rated)
- Neutral light-grey/white = 4.5 – 4.7 stars (no harsh color)
- Soft Red/Pink row highlight = below 4.5 stars (needs improvement)
- These are LIVE Excel conditional formatting rules (not static colors) — they recalculate automatically if you edit any Rating (Numeric) value.
- IMPORTANT: every course/instructor on the live site currently shows a rating of 0.0 (0 reviews) — real placeholder data, not a scraping error — so every row currently renders Soft Red/Pink under this rule. The rule is fully wired up and will re-color rows correctly the moment real ratings are entered.

DATA QUALITY FLAGS FOUND DURING CRAWL

1. Site-wide counters (students/teachers/hours/lessons) render as 0 — confirmed demo/placeholder data.
2. Payment account fields (Bank/JazzCash) are literally marked 'SAMPLE PLACEHOLDER — replace before going live' in the page HTML.
3. About page says founded '2020'; FAQ page says founded '2019' — inconsistent in source content.
4. /blog is linked in the footer/nav but returns a 404 — no blog content is currently published.

Courses & Curriculum Catalog

17 courses / programs

Web Development

Category: Web Development

Instructor: Muhammad Omair khan

Detailed Description: Build the web, Build the Future. Learn HTML, CSS, JavaScript, Bootstrap, wipe-coding projects, AI-assisted front-end & back-end dev, and PHP/MySQL database management.

Platform Features & Overview

58 data points

Hero / Value Prop

Headline: "Learn Today's Skills Build Tomorrow's Career" — Pakistan's Modern IT Learning Platform *[Live]*

Sub-headline: Leaders Academia helps students, professionals and career-changers build practical, job-ready skills in web development, design, digital marketing and AI — through live classes, expert instructors and industry-recognised certification. *[Live]*

Primary CTA: "Explore Courses" → /courses *[Live]*

Secondary CTA: "Free Consultation" → /contact *[Live]*

Trust badges: Live Classes | Expert Trainers | Certificates | Career Guidance *[Live]*

Stat counters: Students / Teachers / Courses / Countries / Certificates (animated on load) *[Displays as 0 — placeholder/demo data]*

Core Features

Expert Industry Instructors: All instructors bring real-world experience and certifications from leading tech companies/institutions. *[Live]*

Live One-on-One Sessions: Personal attention via HD live video sessions — no crowded classes, just student + dedicated instructor. *[Live]*

Flexible Scheduling: Book classes morning/evening/weekends; instructors available across multiple time zones. *[Live]*

Career & Freelancing Support: Guidance on portfolio building, freelancing (Upwork/Fiverr), and landing first IT job/client. *[Live]*

Progress Tracking: Real-time dashboards: skill progress, project milestones, attendance, weekly instructor feedback reports. *[Live]*

Certified Completion: Verifiable digital certificate per course; shareable on LinkedIn, downloadable PDF, unique QR code. *[Live]*

Live Class Tech

Video Platforms: Google Meet and Zoom, both browser/app-based, no special software required. *[Live]*

HD Video & Audio: High-def video/screen sharing for real-time code/design correction. *[Live]*

In-Session Chat & Notes: Share code snippets/resources; instructors annotate on screen. *[Live]*

Session Recording: Classes can be recorded and saved to student account for later review. *[Live]*

Interactive Whiteboard: Used for explaining concepts, architecture, and workflows visually. *[Live]*

Min. Internet Speed: 2 Mbps recommended upload/download for smooth HD classes (audio-only fallback offered). *[Live (per FAQ)]*

Process

How It Works (5 steps): 1) Register (free, <2 min) 2) Choose Course (200+ claimed) 3) Live Classes (1:1) 4) Assignments 5) Certificate *[Live]*

Admissions Flow: Apply Online (~3 min) → Team reviews & matches instructor (within 24 hrs) → Free trial class → Start Learning *[Live]*

Free Trial: Every new student gets a free 30-minute trial class, no credit card required. *[Live]*

Certification

Auto-Generated: Certificate issued automatically upon course completion. *[Live]*

PDF Download: High-resolution PDF available to print or share. *[Live]*

Shareable Link: Shareable on LinkedIn, social media, or with family; includes QR code. *[Live]*

Company / About

Founded: 2020 (per About page) — note: FAQ page states 2019, an inconsistency in source content. *[Content inconsistency flagged]*

Mission: Provide every learner worldwide access to experienced instructors for practical, job-ready IT skills, regardless of age/location/background. *[Live]*

Vision: Become the world's most trusted online IT training institution connecting students, instructors, and employers globally. *[Live]*

Scale Claimed: 2,500+ active students, 50+ countries served, 150+ instructors, 8 courses (About page stat block — inconsistent with 17 shown on /courses). *[Content inconsistency flagged]*

Core Values (6): Innovation, Integrity, Leadership, Professionalism, Practical Learning, Career Growth. *[Live]*

Company Timeline: 2020 Started → 2021: 500 Students → 2022: International Courses → 2023: AI Learning → 'What's Next: Future Vision' *[Live]*
